## Ramón Bosch & Bet Capdeferro

Microclimates, Microcosms

In 2003 Ramón Bosch and Bet Capdeferro founded the office *bosch.capdeferro arquitectures* in their hometown of Girona, Spain. They conceived the project as a concave and inclusive experience, capable of harmoniously integrating through an open process all diverse agents and facts that configure it. In 2011 they received the Emerging Architect Special Mention of the European Union Prize for Contemporary Architecture – Mies Van Der Rohe Award. In 2012 they were selected to participate at the XIII Architecture Venice Biennial, *Common Ground*, as participants of the exhibition *Vogadors – Architectural Rovers*, *Catalan, and Balearic Threads – Hard Materiality for a Permeable Architecture*. Their work has travelled to several European cities as part of the exhibitions *Sensitive Matter: Young Catalan Architects*, and *Constructing Europe: 25 years of Architecture*.
